

## INDEX

**Arachnology**

Oribatid mites from the Isles of Scilly, 7-11; Additional records of British mites of the subfamily Parasitinae, 81-87

**Book Reviews**

11-12, 20, 22, 28, 30-40, 56, 71-72, 79-80, 88, 104, 110-112, 122, 132, 153-159

**Botany**

A flora of Cleveland and some aspects of the plant distribution, 3-6; A 1907 plant list for Nunburnholme, East Yorkshire, 17-20; Some Backhouse discoveries in Upper Teesdale, 89-96; Botanical report for 1989, 148-153

**Bryology**

Annual report 1988-1989, 25-28

**Cetacea**

A review of White Whales off the Yorkshire coast and in British waters, 13-17

**Chiroptera**

The Pipistrelle Bat on the Vale of York, 41-56; A survey of hibernating bats in Drewton railway tunnel, 107-109

**Coleoptera**

The Feather-wing Beetles of Yorkshire, 57-71; Coleoptera reports, 97-102

**Correspondence**

12

**Entomology**

Entomological reports for 1988-1989, Coleoptera: Staphylinidae, 97-102; Recorder's third report on the Aculeate Hymenoptera in Watsonian Yorkshire, 105-107; Relative abundance and food plants of bumblebees on heather moorland, 133-143

**Lichenology**

The lichen flora of industrial Teesside, 73-79

**Mollusca**

The history of alien freshwater Mollusca in north-west England, 123-132

**Mycology**

Two species of *Melanotus* — *Agaricales* new to Yorkshire, 21-22

**Obituaries**

Fred Stubbs, 29; Florence Houseman, 29

**Ornithology**

Notes on the ecology of a wintering drake Smew, 23-25; Water Rail, 96; An historic ornithological letter, 103-104; A nest-box study in North Yorkshire, 113-122

**Personalia**

Margaret Mee and Richard Spruce, 143-148
